FOR IMMEDIATE RELEASE

## POP-ROCK MUSIC TALENT, ALIA ANNOUNCES THE RELEASE OF HER DEBUT SELF-TITLED EP

Multi-talented singing, song-writing and dancing machine, **ALIA**, has announced the release of her highly anticipated self-titled debut EP, cementing a new era of ALIA as an artist.

A star in the making, as the daughter of the highly acclaimed RnB soul singing and bass playing legend, **Doug Williams**, music is truly in ALIA's blood. She has performed all over Australia at iconic venues as well as on a global stage along-side international artists including **Craig David** and **Nelly Furtado**.

ALIA is no stranger to the music industry, she has previously released hit records as a member of all girl group **Fox Fire 4** whilst signed to **Village Roadshow**. Last year, ALIA celebrated two **number 1** records, *Only Now* and *Victim* on the **iTunes Dance charts** under the guidance and production of **Jonny Sonic** from **The Potbelleez**.

ALIA brings a fresh sound and new direction to her own music and live shows as a solo artist. Through her new EP, she aims to draw her listeners to the insight of the core nature of their existence, self-evolution, and love.

The EP was produced by the highly acclaimed **Phil Anquetil** (**Little Mix**, **One Direction**, **Tinie Tempah**) who is a veteran in the music industry and has drawn inspiration from rock bands such as **Evanescence**, **Paramore** and **Guns n Roses**, along with the pop influences of artists such as **Pink** and **Rihanna**.

Made up of tracks such as *Calling Me* - "to be called" to your true purpose. *Forever*, to understand the ultimate test of human strength; *Just Love Me* a bonus track in which ALIA sings about releasing old feelings and coming to terms with heartbreak and *You're The Song*, a playful, fun tune that describes and embodies the mood and feelings of summer love.

*"It's time that live music graced our ears again and the element of live instruments and performance makes a commercial come-back!"* says ALIA

ALIA has reinvented her style, image and artistry to evolve into a glam-rock goddess, transforming her sound into a pop/grunge fusion that will leave the listener craving more.

ALIA's debut EP will be released this Friday, 14 May 2021
